

# See Clearly, Treat Optimally: Image Guided Therapy on the Rise

ROOM 1 – MAIN ARENA 1

Tuesday, 22 January 2019

09:30 – 11:00	<p><b>Symposium: See clearly, treat optimally: image guided therapy on the rise</b> supported with an educational grant from Philips  <i>Moderators: D. Scheinert, F. Moll</i>  <i>Panel: C. Peña, J. Reekers, F. Fanelli, M. Izamis</i></p>
09:30 – 09:35	Introduction and learning objectives <i>D. Scheinert</i>
09:35 – 09:49	Next generation pan-vascular suite: optimizing patient management and outcomes <i>C. Peña</i>
09:49 – 09:57	Perfusion angiography for optimizing planning and treatment of the diabetic foot <i>J. Reekers</i>
09:57 – 10:17	■ <i>BTK recorded case presentation</i> <i>M. Manzi</i>
10:17 – 10:25	Role of IVUS within a “treat optimally” algorithm of care <i>F. Fanelli</i>
10:25 – 10:35	Innovations at the forefront: a glance at the future of image guided therapy <i>M. Izamis</i>
10:35 – 10:55	■ <i>Live case transmission from Leipzig</i>
10:55 – 11:00	Q&A and conclusion

# See Clearly, Treat Optimally: Image Guided Therapy on the Rise

- **Learning Objectives**

1. Understand how innovation in vascular suite's and imaging can impact:
  - Staff workflow and patient management efficiencies
  - Treatment decision, guidance and confirmation
  - Radiation protection for patients and staff
  - Patient outcomes
2. Appreciate the potential disruptive impact of future technologies
