

The logo for LINC (Lombardia International Network for Cardiovascular) features a stylized, colorful graphic of a heart or vessel in shades of red, orange, and yellow, set against a dark blue background with a brushstroke effect.

LINC

Covered self-expandable endoprosthesis and dual component stent for iliac treatment

RAFFAELLO BELLOSTA, MD

Poliambulanza Foundation Hospital

Brescia - Italy

Disclosure

Speaker name:

Raffaello Bellosta

I have the following potential conflicts of interest to report:

- Consulting (WL Gore)
- Employment in industry
- Stockholder of a healthcare company
- Owner of a healthcare company
- Other(s)

- I do not have any potential conflict of interest

CLINICAL CASE

- 72 yrs old w
- Smoker
- No diabetes
- No CHD
- 2 months earlier progressive limb claudication;
2 weeks foot rest pain (Rutherford 4)

CLINICAL CASE

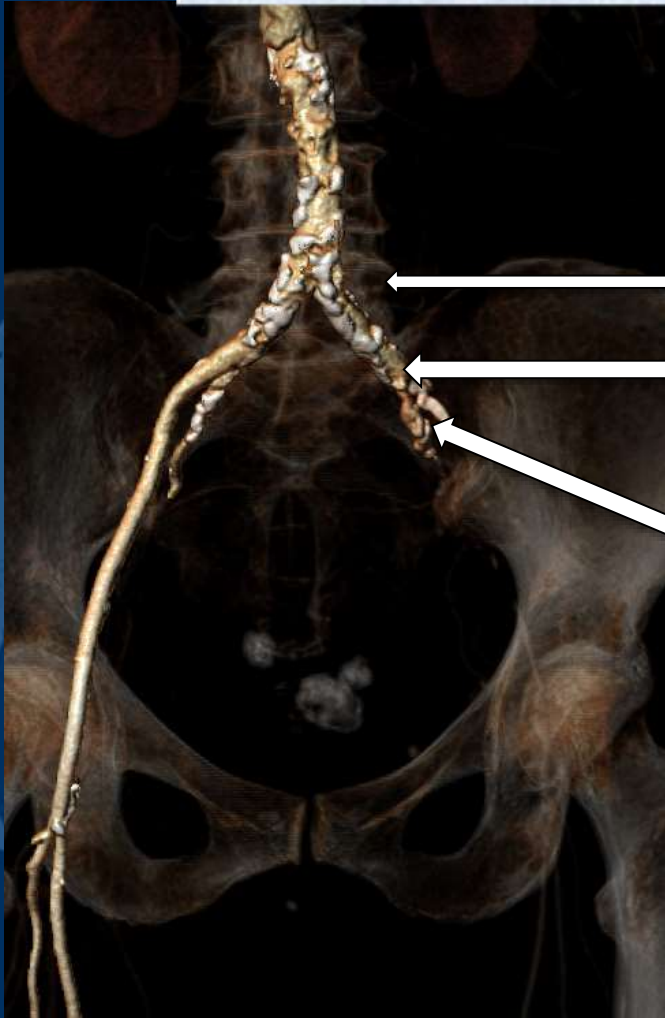

DUPLEX

ABI: 0.42

CT

ANGIOGRAPHY

← No neck

Treat all of the disease (stent “healthy to healthy”)

CONCLUSIONS

1. The most important issue of endovascular treatment, as in open surgery, is to place device (in particular stentgraft) in healthy vessel
2. With covered stents we must be very meticulous with our technique (planning, oversizing not over 1 mm, dual antiplatelet therapy, follow up).
3. In this manner stentgraft becomes a real «endobypass»

The logo for LINC (Lombardia International Network for Cardiovascular) features a stylized, colorful graphic of a heart or vessel in shades of red, orange, and yellow, set against a dark blue background with a brushstroke effect. The letters "LINC" are positioned to the right of this graphic.
